ABOUT

Computational Science and Engineering, Natural Science, Data Engineering, AI, and Automation Engineering are best interest fields. several projects in the academic curriculum and off campus, giving enough knowledge as well as experience to be ready to face the real world. Seek out for hands-on experience in the form of internships with the main focus on enhancing value.

EDUCATION

Bina Nusantara University Aug 2021 - Present
Bachelor of Computer in Computer Science
- Specialization in Digital Creative Technology.

St Louis 2 Senior High School Aug 2018 - Jun 2021
- Relevant coursework in Practical Exam of Natural Science.

SKILLS

Computer Skills
- Google Collab with Python and Jupyter Notebook
- MySQL
- C as introduction of computer language in campus
- Java, PHP, GO, and Kotlin
- Laravel and Flutter Framework
- Tableau, Rapid Miner, Unity, Android Studio

CERTIFICATION & AWARDS

ICCSCI Aug 2023

Author and Presenter of research paper at the 8th International Conference on Computer Science and Computational Intelligence 2023
https://doi.org/10.1016/j.procs.2023.10.573

BOOTCAMP Jul 2021

As participant of DQLab in associate with UMN 2021. In spesific study of Data Science and Analytic

HIGH SCHOOL 2019

3rd place in the academic score of the Science parallel class
